ALL RISE MANIFESTO

Until the ruling is implemented, we will rise up once more, read out this ALL RISE manifesto setting out our demands, and demonstrate our combative spirit.

The court has spoken. Now it is up to our governments to act. Through this ALL RISE campaign, Klimaatzaak is calling on citizens to join forces to ensure the climate ruling is implemented.

ALL RISE For the climate
For the rule of law
For our future

For the climate
The court has ordered our governments to reduce greenhouse gas emissions by 55 percent by 2030. This target is the absolute minimum required to combat climate disruption. The climate ruling is not a non-binding recommendation, but a legal obligation.
ALL RISE for the implementation of the climate ruling.

For the rule of law
In a democracy, everyone is equal before the law. Anyone found guilty must abide by the judgement. This applies to the government too.
ALL RISE for respect for the rule of law.

For our future
Taking the necessary action today protects us and future generations. Everyone has the right to a safe and healthy climate. Delay is therefore no longer an option.
ALL RISE for life today and tomorrow.

ALL RISE

Rise up with us at
